Ray Richmond of the Entertainment website at Hollywood.com gave the film 2 stars out of 5 and called it a "silly, violent thriller in which a (male) cast of homicidal maniacs in prison pants hang, push and choke each other for favors. The story is so preposterous that even four men could not make it seem believable. Not only does the movie have absolutely no internal logic, it has an equally bizarre time frame." The film has a 0% rating on Rotten Tomatoes, and the critics' consensus reads: "Pit Fighter is a mindless collection of violence, sexual assault, and poorly edited fight scenes." (a number of lines created by user). The thing is I want to set 'total' to 0 in case user creates 0 lines - or so I believe. I did it with a loop: CREATE OR REPLACE FUNCTION public.calc_num_of_lines() RETURNS TRIGGER AS \$BODY\$ DECLARE c_num 82157476af
